

MONTEFERRO

**PRODUCT
&
SERVICES**

Simply Up

MONTEFERRO is the complete market source for elevator guide rails solutions, in accordance with International and Customer specific standards. MONTEFERRO offers the widest range of cold drawn and machined guide rails, guide rails for high speed application and a complete line of components and accessories to form the integrated hoistway systems. Guide rails are vital for proper elevator ride comfort and safety. Their development represents a specific and unique product whose manufacturing technology and process results from years of study, research and industry experience. The high quality and superior performance of MONTEFERRO products are a testament to the company's continuous pursuit of manufacturing excellence.

Specifications

MONTEFERRO introduced cold drawn processing into the guide rail market at the end of the 40's. Through continuous improvements and optimization in co-operation with the rolling mill, today on the market is available a complete range of cold drawn guide rails from 3 Kg/mt to 14 Kg/mt.

Standard Cold Drawn Guide Rails

REFERENCE NORM: ISO 7465. RAW MATERIAL: E 235 B (ISO 630: 1995). GUIDE RAIL LENGTH: 5,000 MM \pm 2MM. DIFFERENT LENGTH ACCORDING TO CUSTOMER'S REQUIREMENTS DIFFERENT GUIDE RAILS SECTIONS AND SPECIFICATIONS: ACCORDING TO DEFINITION WITH CUSTOMERS.

Specifications

MONTEFERRO machined guiderail product range includes rails from 8 Kg/mt to 50 Kg/mt for usage in high load, high frequency, high speed and special applications. MONTEFERRO factories work towards a common standard, providing an enhanced riding surface.

KEY FACTORS

Blade roughness

longitudinal $R_a \leq 1\mu$
transversal $1,6 \leq R_a \leq 2,5\mu$

Twisting

$\gamma = 15' / m$

Perpendicularity

$90^\circ \pm \alpha$
 $90^\circ \pm \beta$
 $\alpha = 5'$
 $\beta = 10'$

Straightness

$B/A = 0,0003$
 $B_{max} (5 m) = 0,5 mm$
 $B_{im} = 0,2 mm$

Parallelism

$p = 0,05 mm$

Tongue and groove centering

$c = 0,03 mm$

Specifications

Fishplates are supplied in accordance with International and Customer specific standards. Special application fishplates such as Extra Thick, T-Plates, Minimum Clearance Seismic Plates (in accordance to ASME A17.1 for earthquake zone requirements) and the Ultra System are supplied to enhance joint performances on high speed application in conjunction with High Quality and Match guide rails. Clips including forged clips, sliding clips and special fastening systems as well as guide rail fixing systems, are supplied according to the various global code and Customer requirements.

Accessories

Fishplates

Clips

MONTEFERRO FISHPLATE RANGE ALSO INCLUDE:

THREADED (TAPPED) FISHPLATES, MINIMUM CLEARANCES SEISMIC FISHPLATE, SPECIAL FISHPLATE FOR HIGH SPEED APPLICATION.

DIFFERENT GUIDE RAILS CLIPS: ACCORDING TO DEFINITION WITH CUSTOMER

T-CLIPS

Hot forged rigid guide rail clamping system. Recommended for application where guide rail stack movement is not expected. These clips come complete with threaded shank and nut. T-Clips are available both in burnished and zinc-coated finishing.

Monteferro Code	Applicable Guide Rail Size	Ø mm	A mm	B mm	C mm	D mm	E mm	F mm	G mm	H mm	S mm

I n f o r

Each MONTEFERRO Customer has its own production, delivery and installation standards. By partnering with elevator companies, understanding their needs and suggesting solutions for improvements, MONTEFERRO has developed a wide range of recommendations for guide rail and accessory supply.

m a t i o n

BUSINESS RELATIONS BETWEEN ELEVATOR COMPANIES AND THEIR SUPPLIERS HAVE CHANGED AND BECOME CLOSER AND CLOSER, TRANSFORMING SUPPLIERS INTO PARTNERS TO WHOM ADDITIONAL FUNCTIONS ARE DELEGATE. MONTEFERRO IS ABLE TO PROPOSE AND DEVELOP A CUSTOMIZED RELATIONSHIP WITH EVERY CUSTOMER IN ORDER TO SATISFY THEIR NEEDS AIMING TO BE CONSIDERED YOUR WORLD WIDE SOLUTION PROVIDER FOR GUIDE RAIL AND HOISTWAY APPLICATIONS.

Tectyl 511 M (oil)	2-10 µ	*	1-3
Tectyl 506 (Wax)	20-30 µ	1-3	6-12
Tectyl 506 (Wax)	40-50 µ	3-6	12-36
Castrol TARP (oil)	02-20 µ	1-3	6-12

Data could change according to environmental humidity and salinity

Cleaners

Type	Solubility in water	Characteristics
SA 120	>50%	Eco cleaner
De-Solv-It 1000	--	Fast cleaner

GUIDE RAIL HANDLING & STORING

Bundles have to be lifted with forklifts or crane by 2 slings from the centre of the bundles, having a minimum distance between the two slings (the lifting points) of 2,2 m, this means to have the lifting points at 1,4 m from each end.

As normal bundle weight range is between 500 and 1.000 kg it is recommended not to lift more than 2 bundles at once. It is anyway preferable to handle one bundle per time.

Bundles should be stored horizontally on wooden battens, placed for each level of bundles, at the same distance from the ends. This is important to prevent any permanent deformation of guide rails and loss of linearity properties of the guide rails. The battens distance from bundle ends depend on package solution adopted.

STANDARD GUIDE RAIL BUNDLE PACKING

Monteferro Guide rail Code	ISO Code	Weight per bar (kg)	Number of bars per Standard bundle (pcs)	Standard bundle weight (kg)	Number of bars per full container (pcs)	Accessory set weight (kg)	Num. of bars with accessory set per full container (pcs)

CUSTOMIZED PROPOSALS

Special packing

Guide rails for high speed application supplied with pre-adjusted joints and numbered with sequential, progressive numbering system by columns. This enhanced manufacturing process allows superior quality with reduced field labour.

Special packing solutions to fulfil Customer logistic needs and guide rail protection:

- Multiple guide rail bundles
- Special protection bundles (frame)
- Special sea packing
- Bundles for guide rail supply with fishplate assembled

Special surface treatments

Painted and zinc coated guide rails and fishplates for Panoramic lift or heavy environmental conditions application

Commission solution

Guide rail bundle and accessory supply for specific lift. Each column for the commission is supplied using standard length guide rails and cut down sizes with length according to the elevator column length. Fishplate mounted, anti-skid supports, customized labels and many other possibilities are available.

Hoistway kit

Hoistway (shaft) material supply for specific lift. The customized Kit solutions include lift specific quantities and types of brackets, pillars, buffers, counterweight, fixing, joining screws, installation kit, etc.

MATCHED GUIDE RAILS FOR HIGH SPEED ELEVATORS

Guide rails for high speed applications supplied with pre-adjusted joints and numbered with a sequential, progressive numbering system by columns. This enhanced manufacturing process allows superior quality with reduced field labour.
